LILIET DE LA CARIDAD GONZALEZ POLANCO

Quality Engineering Manager | QA Strategy | AI-Enabled Delivery Systems

Lima, Peru (UTC-5 · Remote · US-hours overlap) · +51 944 537 419 · liliet.polanco.peru@gmail.com

Portfolio: erzascarlettitania.github.io/portfolio · LinkedIn: linkedin.com/in/lilypolanco · GitHub: github.com/ErzaScarletTitania

PROFESSIONAL SUMMARY

ISTQB-certified quality leader with 9 years building QA strategy and delivery discipline across 30+ web, mobile, desktop, and software-delivery products.

- **Quality systems:** Risk-based test strategy, release-readiness gates, and defect-prevention practices that reduced post-release defects by 20% across a 30+ product portfolio.
- **Delivery leadership: QA Lead at ecoPortal (New Zealand), leading 8 direct reports in a 9-person QA organization across 9 product squads, alongside a contract Project Manager engagement covering planning, risk tracking, escalation design, and stakeholder reporting.**
- **AI-enabled execution:** Evidence-first, AI-assisted workflows that make testing, reporting, and coordination more structured, auditable, and efficient.
- **Global remote:** Bilingual (English C1 / Spanish native), based in Lima, Peru (UTC-5) with full overlap with US business hours, working with distributed international software teams.

CORE COMPETENCIES & TOOLKIT

Selected work (github.com/ErzaScarletTitania): G-Connect Testing Agent v2 — operating model for AI-assisted QA with phased execution and machine-readable reporting · MS Graph Auth — reusable CLI for OneDrive/SharePoint automation under tenant constraints · Spec-Driven Delivery Template — specs-to-milestones traceability · Codex CLI Accounts Selection — Windows-first multi-account isolation

Quality & delivery leadership: Quality Engineering Management · QA Strategy · Release Readiness · Quality Metrics · Cross-Functional Delivery · Stakeholder Reporting · Distributed Team Leadership · Process Improvement · ISTQB / Scrum / CMMI

Testing & quality engineering: Risk-Based Testing · Defect Prevention · Incident Escalation Design · Evidence-Based QA · Manual & Exploratory Testing · Cross-Browser Testing · Playwright · Selenium WebDriver · Postman

AI-enabled workflows: AI-Enabled Workflow Design · GitHub Copilot · OpenAI Codex · Claude · Multi-agent systems · Evidence-first reporting

Platforms & languages: GitHub Actions · Azure DevOps · .NET 8 · Flutter · Python · PowerShell · C# · SQL · Windows CLI · OpenCV / OpenCvSharp

PROFESSIONAL EXPERIENCE

ECOPORTAL — Remote (Lima, Peru · New Zealand)

QA Lead (Contract) | Jul 2026 – Present

- **Led 8 direct reports and recruited 3 QA professionals, strengthening quality-engineering capacity for a multi-squad software environment.**
- **Authored a 23-artifact, CMMI-aligned QA operating-model proposal across 11 governance areas, defining standards for traceability, test strategy, risk, metrics, validation, audit, and defect management.**
- **Directed risk-based QA across 3 multilingual workstreams in a React/Rails/GraphQL/REST/Flutter SaaS environment; defined 27 test cases and, for one release, identified 16 defects and validated 12 fixes.**
- **Established rubric-based quality evaluation for a conversational-AI feature, designing 14 test charters across language, semantics, workflows, population, and data accuracy; surfaced 2 defects.**

CUBAN ENGINEER — Remote (Lima, Peru · Havana, Cuba)

Project Manager (Contract) | Sep 2025 – Present

- **Led delivery for a top-priority software program** by coordinating a cross-functional team of 3 engineers, managing planning and risk tracking across a multi-stream software roadmap.

- **Reduced high-impact incident resolution time by 40%** by designing and implementing a tiered escalation framework with clearer severity, ownership, and SLA discipline.
- **Increased on-time deliverable approval to 90%** by introducing milestone demos and tighter stakeholder feedback loops across delivery checkpoints.
- **Standardized weekly financial and burn-rate reporting across every delivery milestone**, giving stakeholders a single view of spend versus progress and eliminating ad-hoc budget status requests.
- **Strengthened execution discipline and team accountability** by introducing clearer goals, ownership expectations, and more measurable delivery tracking.

QA Lead | Sep 2021 – Aug 2025

- **Defined a unified QA strategy across 30+ products**, aligning practices with ISTQB, Scrum, and CMMI and establishing a consistent quality baseline across web, mobile, and desktop products.
- **Reduced post-release defects by 20% across a 30+ product portfolio** by leading risk-based test planning, prioritized regression, and stronger release-gate reviews.
- **Increased pre-UAT defect detection to 60%** by designing cross-platform black-box, exploratory, and risk-based testing across 10+ .NET 8 desktop apps, 5 Flutter mobile apps, and 7 websites.
- **Cut manual regression effort by ~30% per release cycle** by improving regression coverage and evidence-based QA workflows across 3 production websites.
- **Improved QA team consistency and handoff quality** by mentoring analysts in test design, evidence quality, and stronger defect reporting standards.

UNIVERSIDAD DE CIENCIAS INFORMATICAS (UCI) — Havana & Mariel, Cuba

B2B Sales Representative | Sep 2020 – Aug 2021

- **Led account development generating 15 B2B contracts and $1.5M+ in annual revenue** in Cuba's Mariel Special Economic Zone, sustaining 90% client retention across 100+ accounts.

Technical Sales Specialist | Apr 2019 – Aug 2020

- **Owned technical discovery and solution alignment driving a 95% customer satisfaction score**, while accelerating solution-delivery cycles by 30% and cutting complex-issue resolution time by 40% through cross-functional coordination across sales, engineering, and marketing.

University Lecturer (Part-Time) | Sep 2017 – Aug 2021

- **Designed and delivered university-level instruction for 100+ undergraduates in Discrete Mathematics, Probability, and Statistics**, improving cohort promotion rates by 15% through redesigned course materials and targeted reinforcement sessions.

SEO Specialist | Sep 2017 – Mar 2019

- **Owned technical SEO auditing at national scale, executing 2,000+ audits that improved search visibility across 600+ websites**, and contributed to SEOWebMas, a national diagnostic tool for technical SEO assessment of Cuban government websites.

EDUCATION

Engineer in Computer Science (B.E. equivalent) — Universidad de las Ciencias Informáticas (UCI), Havana, Cuba | 2012 – 2017 | "Rubén Martínez Villena" — top graduate honor.

CERTIFICATIONS & LANGUAGES

- **ISTQB Certified Tester — Foundation Level** (CTFL) · EFSET English C1 (70/100) · IELTS General Training B2 (Band 7.0)

English — Professional Working (C1) · Spanish — Native · German — Beginner (A1)

SCIENTIFIC PUBLICATIONS

- **3 peer-reviewed scientific publications (2019–2021)** — full list on the portfolio site: erzascarlettitania.github.io/portfolio
