

LILIET DE LA CARIDAD GONZALEZ POLANCO

AI-Enabled QA Strategist | Quality Engineering Architect | Multi-Agent Testing Workflows

Lima, Peru (Remote · Full Overlap with EST / CST) · +51 944 537 419 · liliet.polanco.peru@gmail.com

Portfolio: erzascarlettitanio.github.io/portfolio · LinkedIn: linkedin.com/in/lilypolanco · GitHub: github.com/ErzaScarletTitania

PROFESSIONAL SUMMARY

ISTQB-certified QA Strategist with 8+ years designing risk-based test strategies across 20+ web, mobile, desktop, and API products. I orchestrate AI agents (Copilot, Codex, Claude, multi-agent frameworks) to execute test automation, generate evidence pipelines, and produce delivery-ready QA artifacts — validated by me at every step. Bilingual (EN C1 / ES Native), based in Lima, Peru with full overlap on US EST/CST. Available for US remote engagements.

CORE COMPETENCIES

AI-Assisted QA Strategy & Execution · Multi-Agent Workflow Orchestration · Risk-Based Test Planning · Prompt Engineering for QA · AI Output Validation · Selenium WebDriver · Playwright · Postman / Newman · CI/CD (GitHub Actions, Azure DevOps) · ISTQB / Scrum / CMMI · Distributed Team Leadership · Stakeholder Communication · KPI & Quality Metrics Design · Bilingual (EN / ES)

PROFESSIONAL EXPERIENCE

CUBAN ENGINEER — Remote (Lima, Peru — serving LATAM / US)

AI-Enabled Project Manager | Sep 2025 – Present

- **Lead delivery of a top-priority software program** by leading a cross-functional team of 3 engineers — directing AI agents to produce status reports, sprint retrospectives, budget analyses, and milestone documentation across a multi-stream roadmap.
- **Cut high-impact incident resolution time by 40%** by designing and deploying a tiered escalation framework with AI-assisted severity classification and SLA tracking for production issues.
- **Lifted on-time deliverable approval rate to 90%** by instituting AI-assisted milestone demos and continuous stakeholder feedback loops that surface misalignment earlier in the delivery cycle.
- **Increased budget transparency and stakeholder confidence by 10%** by standardizing AI-assisted financial and burn-rate reporting tied to delivery milestones.
- **Strengthened team accountability** by introducing structured, OKR-style goal-setting supported by AI-generated progress dashboards.

CUBAN ENGINEER — Remote (Havana, Cuba)

AI-Enabled QA Lead | Sep 2021 – Aug 2025

- **Defined and scaled a unified QA strategy across 20+ products** by aligning practices with ISTQB, Scrum, and CMMI standards — directing AI agents to generate test plans, risk matrices, and compliance documentation for web, mobile, desktop, and API products.
- **Reduced post-release defects by 20% across the portfolio** by orchestrating AI-assisted risk-based test planning, prioritized regression, and automated release-gate reviews with a 3-person QA team.
- **Cut manual regression effort** by directing AI to build and maintain Selenium WebDriver regression suites and Postman / Newman API contract collections across 3 production websites.
- **Achieved 60% pre-UAT defect detection** by designing AI-assisted black-box, cross-browser, performance, and exploratory testing campaigns across 10+ .NET 8 desktop apps, 5 Flutter mobile apps, and 7 websites.
- **Mentored QA analysts** on AI-assisted test design — teaching them to guide AI agents for evidence-based QA, defect reporting, and test case generation, improving team output consistency and reducing escaped-defect re-test cycles.

UNIVERSIDAD DE CIENCIAS INFORMÁTICAS (UCI) — Havana & Mariel, Cuba

Multiple Roles | 2017 – 2021

- **B2B Sales & Technical Sales (2019–2021):** Generated 15 B2B contracts (\$1.5M+ revenue) and sustained 90% client retention across 100+ accounts. Achieved 95% customer satisfaction, accelerated solution delivery by 30%, and cut complex-issue resolution time by 40% as Technical Sales Specialist.
- **Lecturer & SEO Specialist (2017–2021):** Taught 100+ undergraduates Discrete Mathematics, Probability, and Statistics; raised promotion rates 15%. Improved search visibility for 600+ websites via 2,000+ technical SEO audits and contributed to national SEO diagnostic tool SEOWebMas.

AI-ORCHESTRATED PROJECTS

Each project: designed by me, executed by AI agents under my direction, validated by me before release.

- **G-Connect Testing Agent v2** — Multi-agent QA testing system with structured execution phases, persistent session state, and machine-readable reporting. Directed AI to build, document, and package for public showcase. (github.com/ErzaScarletTitania/g-connect-testing-agent-v2-public-showcase)
- **E-Commerce Audit Suite (Playwright)** — Defined audit scope (SEO, security, accessibility, legal, e-commerce core, performance, mobile responsiveness). Directed AI to build a Playwright test suite producing JSON + Markdown reports with timestamped evidence across 3 viewports.
- **G-Connect Frame Extractor (OpenCV / C#)** — Designed an evidence pipeline for QA reports. Directed AI to build a C# + OpenCvSharp utility extracting timestamped PNG frames from recorded test-session videos. (github.com/ErzaScarletTitania/g-connect-frame-extractor-opencv)
- **Invoice Automation & Azure DevOps Export Tooling** — Designed local-first pipeline (Excel → Google Sheets invoices → validation logs → PDF) built end-to-end by AI. Also directed AI to build Azure DevOps work-item export tools producing JSON, attachment bundles, and Markdown reports.

TOOLS & TECHNOLOGIES I ORCHESTRATE (VIA AI)

Testing: Selenium WebDriver · Playwright · Postman / Newman · Manual & Exploratory · Cross-Browser · API Contract | Languages (AI-Directed): Python · PowerShell · C# · JavaScript · SQL | AI Platforms: Copilot · Codex · Claude · Multi-Agent Systems · Prompt Engineering | CI/CD & Platforms: GitHub Actions · Azure DevOps · .NET 8 · Flutter | Evidence: OpenCV / OpenCvSharp · Google Workspace APIs · Windows CLI | Standards: ISTQB · Scrum · CMMI · Risk-Based Testing

EDUCATION

Engineer in Computer Science (B.E. equivalent) — Universidad de las Ciencias Informáticas (UCI), Havana, Cuba | 2012 – 2017

- "Rubén Martínez Villena" — Faculty 2 top graduate of the cohort.

CERTIFICATIONS & LANGUAGES

- **ISTQB Certified Tester — Foundation Level (CTFL)** · EFSET English C1 (70/100) · IELTS B2 (Band 7.0)
- English — Professional Working (C1) · Spanish — Native · German — Beginner (A1)
